ABOUT ME

Full Stack Developer with **3+ years of experience** in building scalable web applications using React, Node.js, and modern technologies. Skilled in REST APIs, database design, and performance optimization. Passionate about creating user-friendly applications and solving real-world problems.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), Java, C, C++, Python, PHP
- Frontend: React.js, Ionic & HTML5, CSS3, Bootstrap 5, Tailwind
- Backend: Node.js, Express.js, Laravel, Flask, Django
- Databases: MySQL, PostgreSQL, Supabase, MongoDB
- Core Concepts: DSA, OOP, OS, Networking and Security
- Mobile/Hybrid: Ionic & Capacitor (Filesystem, SQLite), React Native (CLI), ElectronJs
- Tools: Git, Postman, VS Code, Axios, cPanel, SFTP
- Other: REST APIs, JWT Auth, SDLC, Software Testing, Performance Optimization

WORK EXPERIENCE

Vyqda Technologies, Agra

05/2023–NOW

- Developed and maintained a restaurant POS web application using React.js and Node.js
- Implemented real-time order management system with cart, billing, GST & printing features
- Built variant & addon selection system with dynamic pricing and state management
- Designed and integrated REST APIs for product, staff roles, and order handling
- Implemented staff role & permission management system with secure access control
- Integrated SQLite/MySQL databases for efficient data storage and retrieval
- Built Google Maps-based location system with autocomplete and live coordinates
- Optimized UI/UX for mobile responsiveness and performance improvements
- Used Axios, Context API, and localStorage for state management and API handling
- Worked with Capacitor plugins (File System, SQLite) for hybrid app functionality

PROJECTS

Vyfoo (Restaurant POS System)

- Engineered a scalable multi-platform Restaurant POS ecosystem (Web, Mobile, Desktop)
- Enabled offline-first architecture using SQLite with seamless cloud sync via Supabase
- Implemented QR-based contactless ordering system, improving customer experience
- Built role-based authentication system for Admin, Staff, and Super Admin
- Delivered end-to-end order lifecycle management (order → billing → delivery)
- Developed cross-platform apps (React Native + Electron) for wider accessibility

Map My Location

- Engineered a scalable map-based location system with real-time data synchronization
- Developed multi-role access (Super Admin & Client Admin) for managing locations
- Enabled embeddable map widgets (iframe) for seamless integration into client websites
- Integrated Google Maps services for location search, autocomplete, and live coordinates
- Built a dynamic marker system with efficient data fetching and rendering

AI Content Generator

- Engineered an AI-based content generation platform leveraging ChatGPT API
- Developed end-to-end system (frontend + backend + database) for real-time content creation
- Integrated cloud database (Supabase) for storing generated content and user data
- Built scalable APIs to handle high-frequency content generation requests
- Delivered a user-friendly interface for instant AI-driven content creation

Test Easy (Quiz Management System)

- Engineered an automated quiz platform with scheduling and real-time result generation
- Built time-based quiz execution system with auto start and auto submission
- Developed student & quiz management modules with scalable backend APIs
- Implemented instant result calculation system, reducing manual effort
- Designed a centralized admin dashboard for monitoring performance and data

QR Code Generator

- Engineered a dynamic QR code generation tool supporting multiple data formats (UPI, contact, email, etc.)
- Built customization engine for colors, themes, and logo embedding
- Implemented multi-format export system (PNG, JPG, PDF)
- Delivered a real-time rendering system for instant QR preview and updates
- Designed lightweight app using React CDN for faster performance and deployment

EDUCATION

B. TECH (CSE)

Kali Charan Nigam Institute of Technology

08/2019 - 06/2023
BANDA UTTAR PRADESH, 21001

I SUCCESSFULLY GRADUATED WITH AN ACADEMIC, ACHIEVING A **CGPA OF 7.5**

12th (PCM)

S.V.M. Inter College

04/2017 - 03/2019
BANDA UTTAR PRADESH, 21001

GPA 6.8/10

10th

S.V.M. Inter College

04/2015 - 03/2017
BANDA UTTAR PRADESH, 21001

GPA 7.1/10

ACHIEVEMENTS

The Sparks Foundation

Successfully completed the **Graduate Rotational Internship Program**, acquiring practical experience in diverse functional areas .

Kamadgiri Software Solutions (KSS)

Completed **Web Development Training from Kamadgiri Software Solutions (KSS)**, gaining hands-on experience in frontend and backend technologies.

Employee of the Month

Achieved recognition as Employee of the Month through exemplary leadership and strong results

TCS National Qualifier Test (NQT)

Advanced Section: 78.86

Foundation Section: 73.93

Programming: 86.43

Code Chef

Achieved a **3-star rating** with a notable **rating of 1725**
